

Year 7 Literacy & Numeracy Catch Up Premium Report – Huntcliff School

The literacy and numeracy catch-up premium gives schools additional funding to support Year 7 students who did not achieve the expected standard in reading or maths at the end of key stage 2. Funding for the 2019/2020 academic year is given to the local authority on 28th February 2019 and then passed to us.

Planned Spending 2018-19 (current academic year) – approaches and strategies

Funding allocation: £5,945	
Planned action	Rationale
Training for LSAs on catch up literacy and catch-up numeracy.	Effective targeted intervention for students who are not secondary ready.
Registration interventions to support reading and literacy development provided by LSAs.	Supports the development of numeracy and literacy skills for targeted students.
Spelling and reading test resources to allow precise targeting of students' learning gaps.	Identifies gaps in knowledge and supports targeted interventions.

Spending 2017-18 (previous academic year)

Funding allocation: £5,890			
Action	Rationale	Expenditure	How the allocation made a difference to the attainment of students who benefit from the funding
Registration interventions to support reading and literacy development provided by LSAs.	Supports the development of numeracy and literacy skills for targeted students.	£1537	Gave support to literacy development.
Specialist English and Maths LSA staffing to target support for nonsecondary-ready students.	Supports the development of numeracy and literacy skills for targeted students, closing learning gaps and allowing for targeted pre teaching.	£3688	Gave support to rapid progress for non-secondary ready students who are now in Year 8.
Spelling and reading test resources to allow precise targeting of students' learning gaps.	Identifies gaps in knowledge and supports targeted interventions.	£500	Allowed precise identification of learning gaps to facilitate effective teaching and intervention.
Purchase maths intervention resources (123 Maths)	Supports effective registration interventions.	£295	Improved maths proficiency through targeted intervention. Tailored support programme in place for Y7 and some Y8 students who still require support.
